

Most Frequently Asked Questions

Your Question

Are all cruiseships similar

No – you could say that EVERY ship is different. Even when a cruiseline builds a class of ships from identical plans, there is always some subtle difference amongst them.

Cruiseships range from intimate and yacht-like to vessels stretching longer than three football fields. You can sail with fewer than 100 fellow guests or with more than 3,600. Enjoy atmospheres ranging from casual to formal, contemporary to classic. You can even choose sail-assisted ships. Enjoy the endless activities offered on a contemporary resort-style cruise, or immerse yourself in the culture of a destination on a special interest cruise.

You can view profiles of the world's finest cruise lines in our “Cruiselines”, “Cruiseships” & “Cruise Destinations” tabs on the Menu of this site.
